

**CITY OF KENOSHA, WISCONSIN
DEPARTMENT OF COMMUNITY DEVELOPMENT AND INSPECTIONS
KENOSHA, WISCONSIN**

**REQUEST FOR PROPOSALS TO
REMOVE ASBESTOS AND OTHER PARTICULATES FROM RESIDENTIAL
BUILDING STRUCTURE LOCATED AT 3620 -50th Street and 1808-53rd Street
WITH INSTRUCTIONS TO PROPOSERS**

Proposal Notice No. 09-17

ISSUED :June 16, 2017

The City of Kenosha, Wisconsin, will receive Proposals for the removal of asbestos and other particulates from two (2) residential buildings scheduled to be demolished by others in the future and as described as follows, subject to the following procedures and requirements.

DEADLINE FOR RECEIPT. Thursday July 6, 2017 at 2:30 P.M.

CITY OFFICE WHERE FILED. Department of Finance, Municipal Building, Room 208, 625 – 52nd Street, Kenosha, Wisconsin 53140.

1.0 **PRE-PROPOSAL MEETING.** There will be a Pre-Proposal meeting. Each Proposer has an obligation to examine the site upon which the Work will be performed to assess site condition and confirm Environmental Inspection data. Proposers shall note:

- There is no electric in buildings, so each Proposer will have to supply their own illumination during the inspection.
- Each proposer must provide their own ladders if they want to access the roof.
- The City will open up the buildings on **Tuesday June 27, 2017 at 10:00 A.M.** at the subject locations to give Proposers an opportunity to inspect the building and ask City staff questions prior to the submission of a proposal for work.
- No copies of the Proposal Package will be disseminated at this Pre-Proposal meeting.

2.0 **FORM OF PROPOSAL.** Proposals must be submitted sealed, on City forms, legible and fully complete in all respects, showing the date and time of Proposal opening on the outside of the sealed envelope. The City of Kenosha reserves the right to reject any proposal that is, in its determination, incomplete.

3.0 **FOR MORE INFORMATION.** Call Zohrab Khaligian, Community Development Specialist, Community Development and Inspections, 625 - 52nd Street, Room 308, Kenosha, Wisconsin 53140, (262) 653-4030 and zkhaligian@kenosha.org or Mark Willing, Purchasing Manager, 625- 52nd Street, Room 208, Kenosha, WI., (262) 653-4180 and finance@kenosha.org

4.0 **BUILDING LOCATION AND DESCRIPTION.**

4.1 **Address:** 3620-50th Street, Kenosha, Wisconsin 53144
Tax Parcel No: 09-222-36-231-009
Description: A two (2) story, four unit multi-residential wood framed structure with lower brick consisting of approximately 4,404 square feet together with a basement and attic.

4.2 **Address:** 1808-53rd Street, Kenosha, Wisconsin 53140
Tax Parcel No: 12-223-31-326-015
Description: A one and one-half (1-1/2) story, two unit residential wood framed structure with asphalt shingles consisting of approximately 1,568 square feet together with a basement and attic. Note: This property will be part of a live burn training exercise for the Kenosha Fire Department

5.0 **NATURE OF WORK.** Removal, proper disposal of all asbestos and other particulates from subject locations and reporting shall be in accordance with Federal and State laws, rules and regulations. Environmental Inspection Reports are included hereto, which indicate asbestos and other particulate quantities in need of removal at each location.

6.0 **CONTRACT REQUIRED.** The Contractor selected to perform the Work will be required to execute a Contract and related documents on City forms as a condition of performing the Work. The Contract will include among its provisions:

6.1 Liquidated damages of \$100.00 per day may be assessed where (1) work is not completed in a timely fashion and an extension has not been granted and (2) when there is a failure to comply with City established safety measures.

6.2 Contractors shall procure and maintain, during the term of the Contract, insurance policies, as hereinafter specified. Said policies must be issued by an insurance company or companies authorized and licensed to do business in the State of Wisconsin. The insurance policy or policies shall name the City as an additional insured and contain a clause that in the event any policy issued is canceled for any reason, or any material changes are made therein, the City will be notified, in writing, by the insurer at least thirty (30) days before any cancellation or change takes effect. Contractor, prior to executing Contract, shall furnish: (a) Certificate of Insurance(s) and endorsement(s) indicating compliance with this Section, including the naming of the City as an "additional insureds", and (b) proof of payment of premium to the City. The failure of the Contractor to take out and/or maintain the required insurance shall not relieve Contractor from any liability under this Contract.

The following insurance coverages must be in effect and continue in effect during the terms(s) of Contract in not less than the following amounts:

6.2.1 Commercial General Liability: General Aggregate – Two Million (\$2,000,000.00) Dollars; each occurrence – One Million (\$1,000,000.00) Dollars.

6.2.2 Automobile Liability: Combined Single Limit - One Million (\$1,000,000.00) Dollars.

6.2.3 Excess Umbrella Liability: Minimum limit of Two Million (\$2,000,000.00) Dollars. Said umbrella policy shall provide the same protection and coverage as the Commercial General Liability Policy and shall not have any exclusions or limits not identified in the Commercial Liability Policy.

6.2.4 Pollution Legal Liability: Minimum limit of Two Million (\$2,000,000.00) Dollars (where asbestos removal, environmental process, abatement, remediation or dumping/disposal in a Federal or State regulated facility is required).

6.2.5 Worker's Compensation - Statutory limits.

- .1 Employer's Liability
 - \$100,000.00; Each Accident
 - \$100,000.00; Disease, Each Employee
 - \$500,000.00; Disease, Policy Limit

6.3 Performance and Payment Bond in the full amount of the Contract.

6.4 Release/waiver of liens.

6.5 Obtaining Street Obstruction Permits (where applicable), and notice to or Permit from the Wisconsin Department of Natural Resources, as applicable.

6.6 Removal of all asbestos and other particulates identified in NESHAP survey.

6.7 A hold back provision whereby the City shall withhold twenty (20%) percent of the Contract amount as final payment until the building has been inspected and the Work approved by the Wisconsin Department of Natural Resources.

6.8 All Work is to be performed in accordance with the Contract, which will supersede all other documents and representations.

- 7.0 **INSPECTION AND REVIEW OF SITE AND CITY DATA.** Each Proposer has an obligation to examine the sites upon which the Work will be performed to assess the site conditions and to review City-submitted data. Refer to Section 1.0
- 8.0 **LISTING DUMPING DISPOSAL SITES.** Proposer shall list in its Proposal its dumping/disposal sites. Wherever Federal or State Law requires certain regulated materials to be deposited in Federal or State licensed/permitted sites, then such sites shall be used and their license/permit number noted.
- 9.0 **ENVIRONMENTAL MATTERS.** Where Work requires environmental process, abatement, remediation or dumping or disposal in a Federal or State regulated facility, Proposer may propose alternate methods of doing Work with the cost of each alternative separately noted.
- 10.0 **SPECIFICATIONS AND SPECIAL CONDITIONS.** Any additional Specifications and special conditions for Work would be included hereto and in the Contract.
- 11.0 **AWARD OF CONTRACT.** City will enter into a Contract with the Proposer deemed most qualified. In making this determination, City will consider with respect to each Proposer: general qualifications, special expertise, time in which Work can be performed, financial ability to perform Work, environmental experience and responsibility (where applicable), work record and history, and experience in projects of a similar magnitude.
- 11.1 City reserves the right to reject unqualified or nonconforming Proposals, to reject all Proposals and request new Proposals, to accept the Proposal most advantageous to the City, or to select the most qualified Proposal and negotiate a Contract.
- 12.0 **COMMENCEMENT AND DILIGENT PROSECUTION OF WORK.** Contractor will prosecute Work diligently until fully complete in accordance with Contract.
- 13.0 **EXECUTION OF DOCUMENTS.** Documents which are required to be executed by Proposer shall be executed as follows:
- 13.1. Corporations. By the President and one (1) other officer, preferably the Secretary.
- 13.2 Limited Liability Companies. By a Member, if member managed or the Manager if not member managed.

- 13.3 Partnerships. By each general partner, unless partnership agreement provides otherwise.
- 13.4. Individuals. By each named individual.
- 13.5 Any exception thereto must be approved by the City Attorney who may require such documents as may be necessary to consider an exception.
- 14.0 **DOCUMENTS TO BE SUBMITTED.** Proposers shall submit the following documents on City forms, in the course of making a Proposal.
 - 14.1 Proposal To Remove Asbestos and Other Particulates for each location.
 - 14.2 Dumping/disposal site with DNR Permit Number, if any.
 - 14.3 Affidavit of Organization and Authority and Careful Inspection of Site and Proposal or Bid.

Re: NESHAP Asbestos Survey at
Multi-Family Residence
3620 50th Street
Kenosha, Wisconsin
PSI Project No. 0054976

Dear Mr. Willing:

In accordance with our agreement dated May 15, 2012, Professional Service Industries, Inc. (PSI), has performed an Asbestos Survey of the above-referenced property to identify all Asbestos-Containing Materials (ACM) including Category I and Category II non-friable ACM. Below, please find a discussion of our survey and results.

Facility Description

The facility included in this National Emissions Standard for Hazardous Air Pollutants (NESHAPs) Asbestos Survey was a two-story, four-family residential structure. The wood-framed structure included a full basement and attic. At the time of PSI's survey, the building was vacant.

Survey Intent

This asbestos survey was intended to meet the requirements of the NESHAP for Asbestos demolition or renovation. The survey included a thorough inspection of all areas of demolition or renovation. PSI's inspection team identified, quantified and assessed the condition of all Regulated Asbestos Containing Material (RACM), Category I non-friable ACM and Category II non-friable ACM. A hand pressure test was used to determine whether the material was friable.

Representative samples were collected and submitted to an accredited laboratory for analysis by Polarized Light Microscopy. Reports of Analysis are attached along with Chain of Custody documentation, Bulk Sample Logs, Site Layout Diagrams, and Inspector and Laboratory Certifications.

Findings

Asbestos-containing materials were discovered during this asbestos survey. Assumed asbestos-containing materials were identified and included electrical boxes. The table below details the findings of this survey.

Table 1-Asbestos Containing Materials

Material Description	Locations in Facility	Total Quantity	RACM Cat. I or Cat. II	Friable (Y/N)	Condition
Gold Linoleum	Rooms 118 and 119 (4 th Layer)	189 SF	RACM	NF	Good
Exterior Window Caulk – Gray	Exterior	34 SF (34 Windows)	Cat. I, NF	NF	Good
Exterior Window Caulk – Beige	Exterior	34 SF (34 Windows)	Cat. I, NF	NF	Good
Roof Flashing	Roof	20 SF	Cat. I, NF	NF	Good
Electrical Boxes (Assumed Transit Components)	Room 01	12 EA (12 Boxes)	RACM	NF	Good

SF=Square Feet
EA=Each

The white drywall/joint compound system samples were found to contain asbestos, but the composite samples were shown through point count analysis to contain one percent or less (<1%) asbestos and the composite material is therefore not an ACM as defined under NESHAP. The joint compound separately was shown to contain greater than 1% asbestos and handling of this material must be conducted in accordance with OSHA requirements.

Warranty

The information contained in this report is based upon the data furnished by the Client and observations and test results provided by PSI. These observations and results are time dependent, are subject to changing site conditions, and revisions to Federal, State and local regulations.

PSI warrants that these findings have been promulgated after being prepared in general accordance with generally accepted practices in the asbestos industry. PSI also recognizes that raw laboratory test data are not usually sufficient to make all abatement and management decisions.

As directed by the client, PSI did not provide any service to investigate or detect the presence of moisture, mold or other biological contaminants in or around any structure, or any service that was designed or intended to prevent or lower the risk of the occurrence of the amplification of the same. Client acknowledges that mold is ubiquitous to the environment with mold amplification occurring when building materials are impacted by moisture. Client further acknowledges that site conditions are outside of PSI's control, and that mold amplification will likely occur, or continue to occur, in the presence of moisture. As such, PSI cannot and shall not be held responsible for the occurrence or recurrence of mold amplification.

This report was prepared pursuant to the contract PSI has with the City of Kenosha. That contractual relationship included an exchange of information about the subject site that was unique and between PSI and its client and serves as the basis upon which this report was

NESHAP Asbestos Survey
Multi-Family Residence-3620 50th St. - Kenosha, WI
PSI Project No. 0054976

prepared. Because of the importance of the communication between PSI and its client, reliance or any use of this report by anyone other than the City of Kenosha, for whom it was prepared, is prohibited and therefore not foreseeable to PSI.

Reliance or use by any such third party without explicit authorization in the report does not make said third party a third party beneficiary to PSI's contract with the City of Kenosha. Any such unauthorized reliance on or use of this report, including any of its information or conclusions, will be at third party's risk. For the same reasons, no warranties or representations, expressed or implied in this report, are made to any such third party.

No other warranties are implied or expressed.

Unidentifiable Conditions

This report is necessarily limited to the conditions observed and to the information available at the time of the work. Due to the nature of the work, there is a possibility that there may exist conditions which could not be identified within the scope of work or which were not apparent at the time of our site work. This report is also limited to information available from the client at the time it was conducted. The report may not represent all conditions at the subject site as it only reflects the information gathered from specific locations.

Thank you for choosing PSI as your consultant for this project. If you have any questions, or if we can be of additional service, please call us at 262.521.2125.

Respectfully submitted,
PROFESSIONAL SERVICE INDUSTRIES, INC.

CLIENT PROJECT: City of Kenosha @ 3620 50th St.; 0054976
CEI LAB CODE: A17-3013

Dear Customer:

Enclosed are asbestos analysis results for PLM Bulk samples received at our laboratory on February 27, 2017. The samples were analyzed for asbestos using polarizing light microscopy (PLM) per the EPA 600 Method.

Sample results containing >1% asbestos are considered asbestos-containing materials (ACMs) per EPA regulatory requirements. The detection limit for the EPA 600 Method is <1% asbestos by weight as determined by visual estimation.

Thank you for your business and we look forward to continuing good relations. If you have any questions, please feel free to call our office at 919-481-1413.

Kind Regards,

REPORTING LIMIT: <1% by visual estimation

REGULATORY LIMIT: >1% by weight

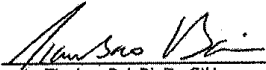

Due to the limitations of the EPA 600 method, nonfriable organically bound materials (NOBs) such as vinyl floor tiles can be difficult to analyze via polarized light microscopy (PLM). EPA recommends that all NOBs analyzed by PLM, and found not to contain asbestos, be further analyzed by Transmission Electron Microscopy (TEM). Please note that PLM analysis of dust and soil samples for asbestos is not covered under NVLAP accreditation. Estimated measurement of uncertainty is available on request.

This report relates only to the samples tested or analyzed and may not be reproduced, except in full, without written approval by CEI Labs, Inc. CEI Labs makes no warranty representation regarding the accuracy of client submitted information in preparing and presenting analytical results. Interpretation of the analytical results is the sole responsibility of the client. Samples were received in acceptable condition unless otherwise noted. This report may not be used by the client to claim product endorsement by NVLAP or any other agency of the U.S. Government.

CLIENT PROJECT: City of Kenosha @ 3620 50th St.; 0054976
CEI LAB CODE: A17-3013.1

Dear Customer:

Enclosed are asbestos analysis results for PLM bulk samples received at our laboratory on February 28, 2017. The samples were analyzed for asbestos using polarized light microscopy (PLM) point count per the EPA 600 Method.

Sample results containing > 1% asbestos are considered asbestos-containing materials (ACMs) per the EPA regulatory requirements. The detection limit for the EPA 600 method is 0.25% for 400 point counts, or 0.1% for 1,000 point counts.

Thank you for your business and we look forward to continuing good relations. If you have any questions, please feel free to call our office at 919-481-1413.

Kind Regards,

Warranty

The information contained in this report is based upon the data furnished by the Client and observations and test results provided by PSI. These observations and results are time dependent, are subject to changing site conditions, and revisions to Federal, State and local regulations.

PSI warrants that these findings have been promulgated after being prepared in general accordance with generally accepted practices in the asbestos industry. PSI also recognizes that raw laboratory test data are not usually sufficient to make all abatement and management decisions.

NESHAP Asbestos Survey
Multi-Family Residence- 1808 53rd St. - Kenosha, WI
PSI Project No. 0054978

As directed by the client, PSI did not provide any service to investigate or detect the presence of moisture, mold or other biological contaminants in or around any structure, or any service that was designed or intended to prevent or lower the risk of the occurrence of the amplification of the same. Client acknowledges that mold is ubiquitous to the environment with mold amplification occurring when building materials are impacted by moisture. Client further acknowledges that site conditions are outside of PSI's control, and that mold amplification will likely occur, or continue to occur, in the presence of moisture. As such, PSI cannot and shall not be held responsible for the occurrence or recurrence of mold amplification.

This report was prepared pursuant to the contract PSI has with the City of Kenosha. That contractual relationship included an exchange of information about the subject site that was unique and between PSI and its client and serves as the basis upon which this report was prepared. Because of the importance of the communication between PSI and its client, reliance or any use of this report by anyone other than the City of Kenosha, for whom it was prepared, is prohibited and therefore not foreseeable to PSI.

Reliance or use by any such third party without explicit authorization in the report does not make said third party a third party beneficiary to PSI's contract with the City of Kenosha. Any such unauthorized reliance on or use of this report, including any of its information or conclusions, will be at third party's risk. For the same reasons, no warranties or representations, expressed or implied in this report, are made to any such third party.

No other warranties are implied or expressed.

Unidentifiable Conditions

This report is necessarily limited to the conditions observed and to the information available at the time of the work. Due to the nature of the work, there is a possibility that there may exist conditions which could not be identified within the scope of work or which were not apparent at the time of our site work. This report is also limited to information available from the client at the time it was conducted. The report may not represent all conditions at the subject site as it only reflects the information gathered from specific locations.

Thank you for choosing PSI as your consultant for this project. If you have any questions, or if we can be of additional service, please call us at 262.521.2125.

Dear Customer:

Enclosed are asbestos analysis results for PLM Bulk samples received at our laboratory on March 15, 2017. The samples were analyzed for asbestos using polarizing light microscopy (PLM) per the EPA 600 Method.

Sample results containing >1% asbestos are considered asbestos-containing materials (ACMs) per EPA regulatory requirements. The detection limit for the EPA 600 Method is <1% asbestos by weight as determined by visual estimation.

Thank you for your business and we look forward to continuing good relations. If you have any questions, please feel free to call our office at 919-481-1413.

Kind Regards,

REPORTING LIMIT: <1% by visual estimation

REGULATORY LIMIT: >1% by weight

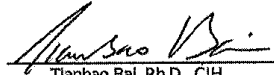

Due to the limitations of the EPA 600 method, nonfriable organically bound materials (NOBs) such as vinyl floor tiles can be difficult to analyze via polarized light microscopy (PLM). EPA recommends that all NOBs analyzed by PLM, and found not to contain asbestos, be further analyzed by Transmission Electron Microscopy (TEM). Please note that PLM analysis of dust and soil samples for asbestos is not covered under NVLAP accreditation. Estimated measurement of uncertainty is available on request.

This report relates only to the samples tested or analyzed and may not be reproduced, except in full, without written approval by CEI Labs, Inc. CEI Labs makes no warranty representation regarding the accuracy of client submitted information in preparing and presenting analytical results. Interpretation of the analytical results is the sole responsibility of the client. Samples were received in acceptable condition unless otherwise noted. This report may not be used by the client to claim product endorsement by NVLAP or any other agency of the U.S. Government.

PERFORMANCE AND PAYMENT BOND

(\$ _____)

Project No. _____

PROJECT DESCRIPTION: _____

BY: (Principal) _____

To And For The Benefit Of
The City of Kenosha, Wisconsin

Know All Men By These Presents, that we,

(Company Name) _____
(Address) _____

as Principal, and _____ (Surety), are held and firmly bound unto the City of Kenosha, Wisconsin, a municipal corporation as Obligor in the full and just sum of _____ [\$ _____], lawful money of the United States, to the payment of which sum, well and truly to be made, the Principal and Surety bind themselves their and each of their heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

WHEREAS, the principal has entered into a written contract with the Obligor for the above project, which Contract is hereby referred to and made a part hereof as fully and to the same extent as if copied at length herein.

NOW, THEREFORE, THE CONDITION OF THE OBLIGATION IS SUCH, that if the Principal shall faithfully perform said Contract according to its terms, covenants and conditions and shall promptly pay all persons supplying labor or material to the Principal for use in the prosecution of the work under said Contract, then this obligation shall be void; otherwise it shall remain in full force and effect.

Subject to the named Obligor's priority, all persons who have supplied labor or material directly to the Principal for use in the prosecution of the work under said Contract shall have a direct right of action under this Bond.

The Surety's aggregate liability hereunder shall in no event exceed the amount set forth above.

No claim, suit or action shall be brought hereunder after the expiration of one (1) year following the date of City acceptance of work on said Contract, or one (1) year following expiration of any warranty or guaranty covering work and materials set forth under said Contract, whichever is longer. If this limitation is made void by any law controlling the construction hereof, such limitation shall be deemed to be amended to equal the minimum period of limitation permitted by such law.
